

February 25, 2015
The Dome of St. Michael's Cathedral in Kerne is up and in place.

The **DOM**E of St. Michael's Cathedral in Kerne is now **COMPLETE**. The **dome is 8 meters in diameter**. May our prayers rise like incense to God the Almighty, now, and for all generations to come, fulfilling our dreams, dreams of our forefathers and of all that will follow in the future.

A close-up picture of the dome

When all is complete, St. Michael's Cathedral in Keren, will look something like the **Artist's drawing**, shown below.
