**Panoramic view of Keren and
St. Michael Cathedral work in progress**

St. Michael's Cathedral in Keren
(Cross shaped building in center of the picture)
is progressing well. God bless all those
who donate and pray for its completion.

The residential buildings for the bishop of Keren, retired priests, and major seminarians are also showing progress. Soon, for the first time in its history, the bishop of Keren will have a residence ending the “nomadic life” of being moved from one place to another!

We will keep you informed as work goes on.
Please visit our web site often.
[God bless you all.](#)
