ST. MICHAEL CHURCH BUILDING PROGRESS

Phase one in the roofing process for **St. Michael's Cathedral in Keren** is almost complete. The dream which started in the 1950's is becoming a reality. Prayers and donations of so many children of God, from all corners of the world, from every race, ethnicity, and religion that have participated in building a house of God in Keren are blessed. May our prayers rise like incense to God the almighty now and for all generations to come.

To all who have given **time, talent and treasure, thank you.**
Please continue to pray and donate to complete the house of God.
Glory be to God now and forever.

More pictures will follow as significant progress is achieved.
