

January 1, 2015

The Dome of St. Michael's Cathedral in Keren is up and in place.

Greetings, Merry Christmas, and Happy New Year to you and all yours. May **2015** be a year of happiness, Grace, and fulfillment with everything in place, in deed!

I am happy to inform you all, sons and daughters of God, as **2015** starts we start it with good news, i.e. the **DOME** of St. Michael's Cathedral in Keren is up and in place.

The **dome** was assembled on the ground, then hoisted up and put in place, to be seen from all directions of the city of Keren and beyond to proclaim the Glory of God.

May all the prayers from within and without this holy place, rise like incense taking our prayer to God the almighty, now, and for all generations to come, fulfilling our dreams and the dreams of all the people in the future.

Yes, there is progress, a big one in deed. However, we have long ways to go for the completion of St. Michael's Cathedral in Keren. I hope soon, real soon, we will see everything in place. May the Good Lord give us peace in full, prosperity and harmony.

When all is complete, St. Michael's Cathedral in Keren, will look something like the **Artist's drawing**, shown below.

Again, I wish you, your families, and all your beloved ones, a Merry Christmas, and a happy new year 2015.

Dr. Amine Kidane
